**BiçakLaw**  
contact@bicaklaw.com OFFICE

**W** We are glad to inform that Biçak Law Office has established a new department in order to provide consultancy and legal support services to companies employing foreign staff as well as to foreign individuals.

What "legislation regarding foreigners" mainly deal with is to determine and protect of foreigners' rights, which are different from those of the citizens. The fact of being a foreigner usually strike to most people when they visit another country for various purposes (short stay, work, study, reside). Obtaining all the necessary information about the domestic rules of the host country is not possible despite even today's available communication means. Therefore, unknown details and different practices can cause serious problems for foreigners.

On the other hand, it is obvious that the legal status of foreigners is more fragile than that of the citizens. Citizenship, which denotes legal and constitutional loyalty to a country, bestows guaranteed rights in all states. For foreigners, the use of rights in the destination country depends on the fulfillment of certain rules.

In Turkey, there have been some favorable amendments, like in other areas, in legislation for foreigners taking the changing conditions and necessities emerging recently into consideration. On 11.04.2014, Law No. 6458 on Foreigners and International Protection entered into force. Then, issues such as entry in Turkey, short or long stay therein, education, revocation of residence permit, have been laid on legal framework and the establishment of effective objection mechanisms against the decisions of the administration have been envisaged. With the Law on International Labor Force numbered 6735 coming into force, the procedures and principles of work permit for foreigners in Turkey have been determined and improvements have been made in related laws. Additionally, some new rules have entered into force about evaluation of the rules with regard to obtaining real estate and property in Turkey .

Within the framework of the developing conditions and emerging needs, we feel obliged to expand the range of our legal services. Our priorities are to facilitate the obligatory procedures regarding foreigners who want to visit Turkey and who currently are in Turkey, to ensure full enjoyment of the granted rights, and to contribute to the improvement of the facilities and services provided by Turkey to foreigners.

We have a brochure attached to the letter with detailed information on the topics mentioned above. We will be glad if you contact us to avail of our services and find out more information about them.

# RESIDENCE PERMIT

## BIÇAK LAW OFFICE

### Address:

Next Level Loft Ofis, Kat 9-10 Kızılırmak Mah.
